Game Overview

Title of the game

Adventure Team

Brief description of the game

Adventure Team is a two-player side-scrolling game. Players need to use the OSC console to connect to the game server to cooperate in the game. The game has two levels and one enemy boss level. The player needs to control the character to move to the right, and the player must use jumping to avoid enemies attacks and jumps on the enemy's head to attack the enemy.

Story

Adventure Team, an ordinary name, but they are a very brave team. They were commissioned to investigate an island. In ancient times, this island was once occupied by pirates but now there is no curse from anyone. The expedition team needs to investigate the reason for the curse of the Lost Island and collect the gold and silver treasures collected by pirates from all over the island.

Can the adventure team survive the island being attacked by cute but ferocious wild animals? Can the expedition work at full capacity and complete the commissioned tasks, and it is clear why people abandon their treasures and escape the curse of this island?

You are invited to join the adventure team!
